Alaska Gasline Development Corporation; Notice of Revised Schedule for Environmental Review of the Alaska LNG Project

This notice identifies the Federal Energy Regulatory Commission (Commission) staff's revised schedule for the completion of the environmental impact statement (EIS) for the Alaska Gasline Development Corporation's (AGDC) Alaska LNG Project. The previous notice of schedule, issued on August 31, 2018, identified November 8, 2019 as the final EIS issuance date. The previous notice stated that the forecasted schedule was based upon AGDC providing complete and timely responses to any data requests. In its partial data request responses filed in January and February 2019, AGDC states that it would provide the remainder of the responses in stages through July 2019. As a result, staff has revised the schedule for issuance of the EIS. The revised schedule for the EIS is based upon AGDC meeting its commitment to provide complete responses to outstanding data requests on the dates it has identified. Staff has revised the schedule for issuance of the final EIS based on an issuance of the draft EIS in June 2019.
